SUMMARY

Aspiring AI/ML Engineer with expertise in Python, Java, SQL, Machine Learning, Deep Learning, Agentic AI, and Data Science. Experienced in building AI-driven applications and certified in Data Science, Generative AI, Cloud Computing, and Data Analytics. Eager to apply analytical and technical skills to develop innovative AI/ML and software solutions.

PROJECTS

PlacementPilot AI – Agentic Placement Preparation Assistant

Live Demo: placement-ai-pro.vercel.app | GitHub: github.com/keerthana-1807/placement-ai-pro

- Built a multi-agent AI platform that generates placement readiness reports from resumes using an orchestrator agent
- Developed a Resume Analysis agent that delivers a section-by-section critique with a 0-10 quality score.
- Implemented an ATS Compatibility agent that matches resume content to the target role using keyword scoring.

KYC Agent – Agentic AI Web Platform

- Built an AI-powered KYC automation platform for identity verification and compliance.
- Integrated OCR to extract and validate information from government-issued documents.
- Designed validation workflows to flag document mismatches and reduce manual compliance review effort.

AI-Driven E-waste Segregation Robot using Reinforcement Learning

In Progress

- Implementing computer vision and sensor-based classification to detect electronic components and optimize segregation accuracy in real time.
- Designed a self-learning model to optimize waste sorting and reduce recycling costs.

National Level Conference on Frontiers in AI-Based Applications – Participant

- Participated in a national-level AI conference, interacting with researchers and industry experts.
- Interacted with experts and researchers, strengthening understanding of emerging AI technologies and research trends.

EDUCATION

Bachelor of Engineering – Computer Science & Engineering (AI & ML)

Maharaja Institute of Technology, Mysore | CGPA: 7.0

Sep 2023 - Apr 2027

Pre-University (Class XII)

Vasavi PU Composite College | 70%

Jun 2021 - Mar 2023

CERTIFICATIONS

- Introduction to Microsoft Azure Cloud Services – Microsoft
- Connect and Protect: Networks and Network Security – Google
- Data Science Fundamentals with Python and SQL Specialization – IBM

TECHNICAL SKILLS

Programming Languages: Python, C, Java, SQL

AI/ML & Data: Machine Learning, Agentic AI, Generative AI, Data Science, Natural Language Processing (NLP)

Databases: MongoDB | **Tools:** Git, GitHub, VS Code, Google Colab, Jupyter Notebook

Languages: Kannada, English | **Interests:** Bharatanatyam Dancer, Singing
